> Writing to the New York Journal of the duel between the Count of Turin and Prince Henri of Orleans, Raol Duval says:

"In the gray light of early morning the royal representatives of France and Italy faced each other, and after tweny-six minutes of fighting the Count of Turin was declared the victor. "Now all France watches by the

pedside of Prince Henri, while all Italy applauds the Count of Turin. "The former received two sword wounds, one of which may be serious. while the Count of Turin escaped with

a scratch

"The real victory, however, is everywhere regarded as belonging to Prince Henri, and the duel is likely to have far-reaching consequences. He was playing to an immense audience. He is pretender to the throne of France, and the fight that occurred to-day was a direct outgrowth of his scheming. He now announces that he aims at the foundation of an equatorial empire. "He has caught the eye of France By this one dramatic act he has a anined amazing popularity among the

French people, ever fond of theatrical effects. The announcements coming from his bedroom consist of patriotic utterances mixed with statements of an alleged desire to extend the glory f France. "It is now admitted on the boulevards that what the Prince is aiming at is

Dr. Spencer, by bold, gical reason, proved that the course f the lakes was steadily changing. VIRGINIA DEMOCRATIC CONVENTION

Large and Harmonious Session-Strong Nominations and the Chicago Platform Endorsed - Senatorial Primary Defeated.

A Roanoke special of 12th inst. to the Richmond Dispatch says: The Virginia Democracy, in convention assembled here, refused tonight by a vote of 850 to 690, to endorse the plan ooking to the nomination of United States Senators by primaries. This was about the last important act of one of the largest and most representative political conventions in the history of the State, and closed by far the most interesting fight of the busy days' ession. The result of this contest, in which some of the ablest of the party leaders took parts, was not surprising as the subject had only been agitated for a few weeks.

The election of the party's standardpearers was completed early in the afernoon, when, after a five-hours' fight with a field of six entries, Hon, A. J. Montague, of Danville, was nominated for Attorney-General. The brillian young lawyer who has but recently given up the office of District-Attorney led from the start, and gained steadily until the third ballot, when his nomination was made unanimous and by acclamation before the foot of the roll was reached.

The last hours of the convention wer more interesting than the first. There were no speeches of any considerable length, but an abundant display of oratory, in nominating and seconding speeches, and in the discussion of the

senaterial primary question. The attendance through the greater part of the morning session was quite large, and the vote for Attorney-General showed that every one of the 1,548 delegates was present or accounted for It is the consensus of opinion that this was one of the best conventions ever held in the State. It was composed of the best men from every sec tion of the Commonwealth: its delib erations were mature and sober, and there was very little display of feel-

The ticket nominated-Tyler, Echols and Montague-is regarded as one that could not have been surpassed. The re-election of Mr. Ellyson, as State Chairman, gives universal satisfaction, and the platform is regarded a an exceptionally strong one. In brief the work of the convention has been well done, and the party leaders and delegates return to their homes satisfied that what was done in Roanok will receive the hearty endorsement o the people at the poll in November: All of the contests were conducted upon such a friendly plane that there is not left one pang of bitterness. The body adjourned justbefore 9 o'clock to night, and most of the visitors left for their homes before midnight. Major Taylor remains over here until tomor ow. He has been receiving congrat

WHEAT AND SILVER. Winston Journal. With wheat up and silver down, the truth of that old law of supply and demand radiates as brightly as the noondaysun. Wheat is up because the demand is great and the supply is short. Silver is down because the demand is not great. The one has a market be cause it is being used; the other has no market because it is not being used. The cry from certain quarters is there is no need of silver. This cry can be logically met with the argumen that there is no use for wheat. Gold has been made to supplant silver. Why should corn not be made to sup plant wheat? The answer comes that there is insufficient corn, and that it takes both to feed the world. The parallel is equally true of gold and sliver. There is insufficient gold and it takes all of both to raise the

business of the country to its proper standard. No, gold has not raised wheat up but it has brought silver down. Let silver have a market and we will see the price go up like a flash. Give us more gold and more silver The country is not likely to get too much of either. We must have more money. The demand for it is greater than the supply. Put the two metals on a parity and give them unlimited

coinage, without discrimination against either. DESTROYED WORKING MINERS' PROPERTY.

SENATOR GEORGE'S FUNERAL

The Body Lies in State in the Capitol at Jackson.

By Telegraph to The News. JACKSON, Miss., Aug. 16.-The renains of the late Senator George lay in state in the rotunda of the capitol until this afternoon, when they were removed to Carrollton for interment. It was his last request that he be buried beside his wife. This wish will

be respected. The body was escorted to the depot by all the State officials, the Capital Light Guards and the local order of Odd Fellows.

Senator George was not a native of State since his eighth year. He was oorn in Monroe county, Georgia, on the 26th day of October, 1826. After the death of his father, which occurred in the senator's early infancy, he removed with his mother to Noxube county,

He took an active part in the civil war, easting his lot with the South. He left the convention hall to be a aptain in the Twentieth regiment of the Mississippi volunteers. He rose to the rank of brigadier general of State roops before the close of the war. In 1879 he was appointed to the subreme bench and soon afterwards was elected chief justice, in which capacity he was serving his State when first elected to the United States senate in 1881. Whatever may be the result of the ting in Ohio next November now quite apparent that the Republicans, in addition to the prestige of a natural Republican State, are to have some extraordinary advantages over their Democratic opponents. But a few days ago the managers of the gold Democracy in Ohio held a convention and decided to place a State ticket in the field, and now the Populists have taken similar action and, despite all the efforts of the national headquarters to bring about a fusion of the anti-Republican forces the campaign of Gov. Bushnell for re-election and that of Mr. Hanna for his return to the Senate are to have a disunited opposition. Washington Post.

NOVEL WATERMELON CONTEST.

A WARM ATTACK.

Congressman Grosvenor, Hanna's Right Hand Man, Says Civil Service Commissioners Violate the Law, and Charges that Criminals are Harbored by the Civil Service Regulations.

Correspondence of the News. WASHINGTON, Aug. 16-Boss Hanna's man, Dick, may be relieved of the management of the Hanna campaign in Ohio. He has got himself the ill will of the Republican magnates for having bungled his work bribing certain Ohio Populists. Instead of using cash, he was thoughtless enough to have used checks and these disagre able proofs of bribery have gotten into Mississippi, but had resided in the the wrong hands. The magnates aforesaid expected Dick to arrange for the nomination of a straight Populist State ticket in Ohio, and for other Populist assistants to the Republican State and legislative tickets, especially the latter, but they didn't expect him to do it so clumsily as to be caught at it. As no explanation has been or can be put forward by Dick that will satisfy an intelligent and unprejudiced mind that he has not ben engaged in wholesale bribery, it is believed in Washington that Boss Hanna will seek to escape responsibility for the bribery by pretending to rebuke Dick by taking the management of the campaign out of his hands. Dick's bribery has greatly strengthened Democratic hopes of de-

feating Hanna. THE NAVY YARD. "Teddy" Roosevelt has shown that the limit of his versatility has not yet been reached by assuming the role of official whitewasher. His letter exonerating Constructor Bowles, who has charge of the Brooklyn Navy Yard and who was charged with political and other favoritism in running that yard, gives Mr. Bowles an unusually thick coat of whitewash. But there is one black streak-that "Teddy" may have put in as a sort of tip to Mr. Bowles. It is the following language in "Teddy's" official letter: "The attention of Constructor Bowles will be especially called to that part of Commander Davis' report (Davis was the officer detailed to make the investigation) warning him as to being sometimes overharsh and following too implicity the recommendations of leading men and quartermen." Notwithstanding dy's' 'whitewash, the New York Tribune said editorially since the publication of "Teddy's" alleged opinion: "Politics in the Navy Yard cannot be too strongly conde ble condition of the Brooklyn dry docks and the consequent sending of the Indiana to Halifax, form an impressive object lesson." A prominent Naval officer remarked after reading the above: Roosevelt and Whitelaw Reid ought to hold an executive session and try to get together on Brooklyn Navy Yard matters.'

GROSVENOR'S UNSPOKEN SPEECH It is a fact of more than passing importance that the bitterest public atack ever made on the present civil service system is contained in a fifty-column speech in one of the belated numpers of the Congressional Record, which was occasionally published up to last week for the purpose of giving members of Congress a chance to talk to their constituents through the medium of "leave-to-print" speeches which purport to have been spoken on the floor. This attack on the civil service system was prepared by Representa-tive Grosvenor, of Ohio, the bosom friend of Mr. McKinley and one of the lleutenants of Boss Hanna. In it he claims to have the records of 271 men who were criminals, but who secured offices under the civil service rule, and

accuse the civil service commission of violating the law daily. A DISCRIMINATING DUTY Ex-Secretary Carlisle and Ex-Asssistant Secretary Hamlin made arguments before the Attorney General against the application of the 10 per cent discriminating duty imposed by the Dingley tariff upon importations from Canada to importations from ther countries which come into the United States over a Canadian railroad. Messrs. Carlisle and Hamlin represent New England Railroad and business interests. Secretary Gage asked the Attorney General for an

opinion and will withhold his ruling until he gets it. CARLISLE'S ADVICE." Mr. Carlisle still has an idea that the gold Democrats should keep away from the regular Democrats and he has advised the putting up of a gold Democratic ticket in every State in which an election is to be held this year, and announced his intention to drop his law practice long enough to go to Kentucky and speak for the gold Democrats. The regular Democrats smile at Mr. Carlisle's talk and say that there can be no future for a gold

Democratic organization. MECKLENBURG'S FINE CROPS The Charlotte correspondent of the Wilmington Messenger writes: "Mecklenburg county is rejoicing this year over the finest crop prospect that she has seen in years. The season, so far, is all that could have been wished, and all crops are in the most excellent and promising condition. Some of the finest and largest melons ever seen on the Charlotte market have been brought in this season. Melons weighing from 40 to 60 pounds have been common, and in one or two instances they have been brought in weighing in the neighborhood of 70 pounds. The farmer in this section truly has a right to look happy this year; for, with cotton on the upward tendancy and the prospect for an ex-cellent yield of that staple, and all

THE NEWS OF HUNTERSVILLE. Correspondence of The News. HUNTERSVILLE, Aug. 18 .- Last night Miss Emma Hunter entertained a number of her friends at her home from 8 to 11 o'clock with a lawn party. Miss Janie McClintock, of Charlotte Miss Mary Maxwell, of Davidson, and Miss Elma irkpatrick, of Sharon, are visiting friends here this week. HOW ABOUT THE MOONSHINE

STILLS? There were on the 1st day of August 575 registered distilleries in operation in the United States, daily capacity 255,970 gallons. There were at that date 227 in operation in North Carolina with a daily capacity of only 2,521 gallons. This is really only about onethird of the registered distilleries. It would be interesting to know how many moonshine outfits there are in This State, Probably to say that there tre two for each registered distillery would not be an overestimate. There is only one government distillery in Massachusetts, but it has a daily capacity of 4,800 gallons. Illinois has nine with 36,402 gallonsdaily capacity.

THE PRODUCTION OF GOLD. The world's production of gold for the year 1896 is estimated by the Diciector of the Mint to have been \$205,-000,000, of which the United States contributed nearly one-quarter, says Bradstreet. For the year 1897 the probable gold product is estimate at \$240,000,006. Increases are expected from all the principal producing countries, that from South Africa being rewith shotguns to prevent such an end- garded as the most important in point of quality and value.
